

The Chartered Institute of Arbitrators (Ciarb) Cyprus Branch is pleased to invite members, practitioners, and stakeholders to a high-level international conference titled:

Specialisation – A Trend in International Commercial Arbitration

Held in the context of the official visit of Ciarb's President, Mr. Cesar Augusto Guimarães Pereira, this conference will convene thought leaders from arbitral institutions, government, industry, academia, and the international arbitration community to engage in a forward-looking dialogue on the challenges and opportunities and will explore the growing importance of specialisation in international commercial arbitration and how industry-specific expertise is shaping the future of dispute resolution.

This event will provide a valuable platform for discussion on key issues, including:

- The role of specialised arbitrators in improving efficiency and decision-making
- The impact of technical expertise on arbitral proceedings
- Challenges and opportunities arising from increased specialisation
- The future direction of international arbitration in a rapidly evolving global landscape
